# NISIA

Lumen8

Nisia means islands in Greek.

As you look over the hills of Santorini just after the sun sets, the little glowing box windows of the homes of the locals start to glitter as one by one, they are switched on in anticipation of the evening to come. These softly illuminated, rocky outcrops are the inspiration for our LED soft tub range, NISIA. A smattering of carefully placed, tiny square cutouts mimic the beauty of these hillsides under the soft, full moon of a breezy Greek twilight; and LED globe provides the illumination, and a recycled polyester material provides the rounded body. Bring the magic of a Santorini dusk to your space with the NISIA Soft Tub range, by Lumen8.

Product Name	NISIA
Designer	Lumen8
Material	Recycled plastic acoustic panel
Colours	Any
Dimensions	Standard sizes Ø450 (mm) Ø700 (mm) Ø1200 (mm)
Lamp	E27
Voltage	240v
