Halo

Planlicht

Halo is a high-class LED ring luminaire direct/indirect with a seamlessly welded lamp housing in a compact design made of steel sheet. Fitting via cable suspension with max. length 2000 mm, continuously adjustable via quick release. Ring 64mm high, 54mm wide. Diameter 760mm / 1040mm / 1220mm and 1360mm. Equal light spread direct/indirect 1:1. Light control via satined diffuser made of PMMA for an almost homogenous light emission. Direct/indirect diffuser with 8mm height for lateral light emission. Equipped with LEDs of latest generation. Colour rendering index Ra>80. Close colour tolerance MacAdam 3. Ready for connection via 3 or 5 pin, transparent supply and ceiling canopy. Position of canopy optional lateral or central. All versions are delivered with a white canopy RAL9016.

Halo is available in Le Corbusier's Les Couleurs range- enquire in store with our staff for colour options.

Product Name	Halo
Manufacturer	Planlicht
Product Code	R48___-9__6E28___S
