H Series H4, H5, H6

Lumen 8

As the H series family expands we introduce H4, H5, H6 styles. This simple, minimalist, yet versatile design still utilises a slim aluminium body and high efficiency LED tape to add the extra dimension to your space. The straight and zig zag design is perfect for a corridor or hallway space. Whether your space is minimalistic or decorative, this geometric pendant is guaranteed to provide the sophisticated touch that your space deserves.

The H series H4, H5 and H6 are the standard sizes for these horizontally lineal and zigzag designs, however, custom sizes are available on request- Just ask our friendly designers!

For the exterior colour, go black, bronze, gold or clear anodised to complement other features within your space.

For the interior colour, again go for a contrast to the exterior colour with black, bronze, gold or a clear anodised.

All pendants come with: LED driver (installed remotely in ceiling), ceiling canopy cup (80 x 80 x 25mm), 2m Stainless Steel Suspension, Cable Grip. The light source is 14w LED tape (1100 lumens p/metre), with a colour temperature of either 3000k or 4000k.

IP 20.
