H Series H7, H8

Lumen8

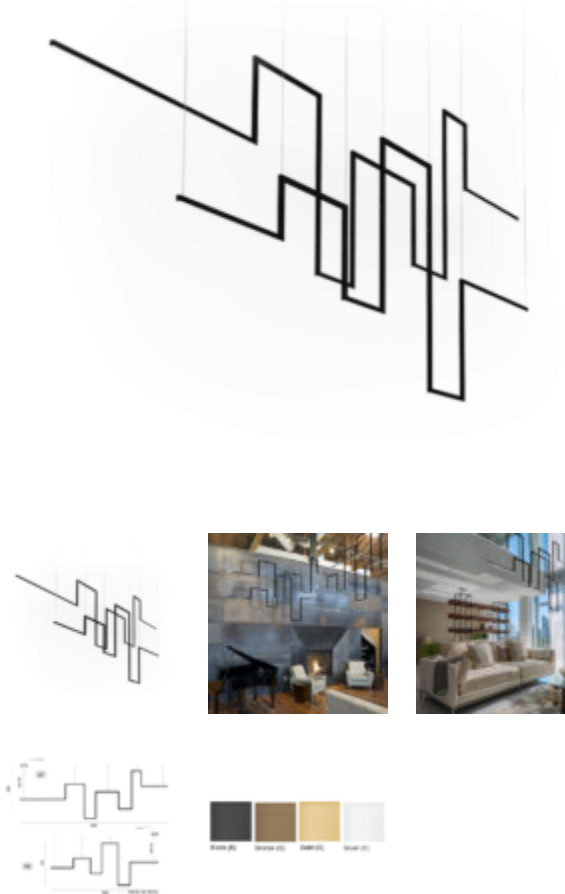

The H Series H7 H8 are simple, yet versatile designs; ideal for use in void spaces, retail and commercial applications. H series is locally designed and made in Brisbane and feature a slim aluminium body and high efficiency LED tape. Furthermore, the pendants include both direct and indirect light to further brighten a space. Whether your space is minimalistic or decorative, this pendant is guaranteed to provide the sophisticated edge that your interior deserves. H series H7 + H8 are a perfect way to introduce height and interest into a small or plain space.

The H7 and H8 come in standard sizes, however, custom sizes are available on request; just ask our friendly designers! The exterior profile colour, and the interior section of profile can be your choice of black, white, gold, bronze or silver.

All pendants come with an LED driver (installed remotely in ceiling), ceiling canopy cup (80 x 80 x 25mm), 2m stainless steel suspension and cable grip.

The light source is 21W LED tape (1700 lumens p/metre), with a colour temperature of either 3000k or 4000k.
