Skai

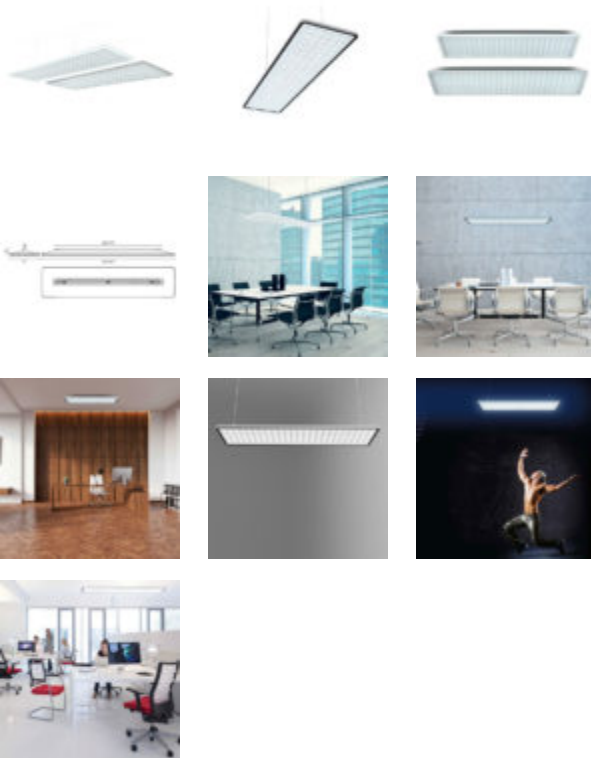

Planlicht

The Skai direct / indirect luminaire is an LED office pendant / surface mount fitting with unique lens technology. Flat suspended luminaire with rounded edges and unique lenses for reduced light density. Skai comes in 3000k, 4000k and tunable white which makes it an excellent choice in terms of creating human centric lighting in your office environment.

With the option to come with a motion and day-light sensor, this DALI dimmable fitting is UGR<16, making it the obvious choice for your workplace.

It comes in the Le Corbusier Les Couleurs colours range, and in two lengths of 1186mm and 1471mm long. Optional decorative frame in high glossy black.
