Acacia

Lumen8

Lumen8 have reinvigorated the Logikline brand with two new, Brisbane made products. One of which, is Acacia.

With the success of our architectural H Series pendant range, we identified the need for a fitting with complimentary aesthetic form, but with a bit more grunt and a competitive price tag to suit the Queensland market. Both Acacia and Kenyon internally house OSRAM (MacAdams 3) high output LED boards with effortless slimline forms that honour the delicate, architectural style that makes the H Series so popular. Both profiles boast integrated drivers, DALI dimming and an electrical "plug and play" system, which allow for quick and tool-free, end to end connections. Available in high and low output boards, with various finishes and mounting options, the Acacia and Kenyon give the user ultimate design flexibility. These additions to the Lumen8 product range ensure that we can find a solution to any lighting layout you send our way. The LED boards come in 3000k and 4000k (2700k available on request); and CRI>80 as standard (CRI>90 available on request).

2250mm long Acacia= High Output at 87watts (9180 lumens) and Low output at 60watts (6930 lumens).

Taking inspiration from the H-Series pendant range, we offer a range of on-trend anodising and powdercoating finishes: Black, Silver, White, Bronze and Gold. We want to be flexible in helping to bring your project to life; if there is an option that you want, but you can't find the information here, just ask us and we might be able to make it happen!

Product Name	Acacia
Manufacturer	Lumen8
Product Code	ACACIA
Material	Aluminium
Colours	Black, White, Silver, Gold, Bronze
Dimensions	Standard: 2250mm (L) x 38mm (W) x 85mm (H)
Lamp	Inbuilt LED board
Lumens	HO= 9180 lumens, LO= 6930 lumens
CRI	CRI>80
Voltage	240v
IP	IP20
