IP68 LED Neon 20 Flex

Lumen 8

The IP68 LED Neon 20 Flex is a flexible LED tape perfect for both interior and exterior applications. The Neon 20 Flex is able to bend horizontally making it ideal for curved surfaces, joinery lighting and under bench lighting. It is available in custom lengths and is both UV, corrosion, saltwater and dirt resistant. The Neon Flex uses 12w LED chips ranging in colour temperature from 2200K-6500K and runs on 24v.

Also available in a **vertical** version.
