Parliament Floor Lamp

Nemo Cassina

The Parliament Floor Lamp is an elegant, retro designed lamp ideal for use in both contemporary and traditional spaces. Designed by Le Corbusier for the Indian Chandigarh Parliament, this lamp has been reinvented for modern day use. With a sturdy aluminium body and double adjustable emission for diffused lighting, it boasts an updated classic look without compromising on function. Similarly, the specially designed shades offer 345° rotation and 180° adjustability. Versatile functionality makes this floor lamp perfect for study spaces, living rooms and receptions. Likewise, the vintage elements along with sleek finishes create a unique blend of old and new.
