

Hinaki by David Trubridge

Hinaki was David’s first exploration into lighting in 1995 when he made a prototype based on fish traps which are called Hinaki by Maori. Hinaki traps were made from woven vines, some in amazingly beautiful forms. The Hinaki is part of the SEEDS flat pack kitset series. However, our team can assemble them for you. Simply ask us! *Dali dimming requires an additional component installed remotely in ceiling
