

Bolle by Vistosi

Characterised by their unique bubble pattern, Bolle is a unique and interesting series. The bubbles are made using the Balaton technique; a process of inserting bubbles of air into the glass during its production. The collection comprises of pendant, wall and ceiling mount styles in a multitude of sizes. The glass sphere is available in a clear or opal finish, and the 120cm suspension features a satin nickel ceiling canopy. *Dali dimming requires an additional component installed remotely in ceiling
